CAREER OBJECTIVE

Aspiring Software Engineer with a strong foundation in Data Structures, Algorithms, and problem-solving, passionate about software development and competitive programming. Skilled in building efficient, scalable, and user-focused applications using modern development technologies. Seeking opportunities to apply technical knowledge and contribute to innovative software solutions.

SKILLS

Frontend

HTML5 | CSS3 | JavaScript | React.js | Bootstrap

Hardware & IoT

ESP32 | Raspberry Pi | Sensor Integration

Backend

Node.js | Express.js | Python | C | Java

App Development

Flutter

Databases

MySQL | MongoDB | PostgreSQL | SQLite

EDUCATION

Bachelor of Technology in Information Technology, PSG College Of Technology

2023 – 2027

- CGPA: 8.22 (up to 5th semester)

Coimbatore, India

Class XII, Bharani Park Matric Higher Secondary School

2021 – 2023

- Percentage: 98%

Karur, India

PROJECTS

Mental Health Chatbot for Stress Relief, Python, SQLite, Tkinter

- Built a chatbot with mood-based response logic, simulating middleware-style data handling and adaptive interaction.
- Created a fully functional product prototype under time constraints, with a focus on emotional recognition and quality delivery.
- Github:<https://github.com/RIGASWAR/Mental-Health-Assistance-Chatbot> 📄

Fleet Tracking and Route Optimization System, Python, SQLite, Tkinter

- Designed a real-time tracking and route optimization application simulating low-latency delivery systems.
- Implemented optimization algorithms, ensured test coverage, and handled route challenges through clean code delivery.
- GitHub:<https://github.com/RIGASWAR/Fleet-tracking-system> 📄

ACHIEVEMENTS

- Secured 1st Place in “Blind Coding,” a competitive programming event conducted by the IT Association (ITA), PSG College of Technology.
- Secured 2nd Place in “Code Fusion,” an inter-college coding competition focused on problem-solving and programming skills.
- Secured 2nd Place in a two-day hackathon, TECH-A-THON, for developing a real-time AI-powered mental wellness chatbot under constrained development timelines.

CERTIFICATIONS

- Full Stack Web Development (PERN Stack) – Udemy
- Flutter App Development – Techobytes Technologies
- Python Programming Fundamentals – Coursera

AREAS OF INTEREST

- Data Structures and Algorithms – Problem-solving, algorithm optimization, and complexity analysis.
- Full Stack Development – Scalable web application development using modern frontend and backend technologies.

- Database Management Systems – Relational databases, SQL, indexing, and transaction management.
- Operating Systems – Process scheduling, memory management, concurrency, and OS internals.
